“ Momma had a gold Laguna and we were going on vacation to California. We barely got on the mountain and the car broke down. Billy came and fixed the car so we could continue the trip. I was upset that he used one of our Pepsis on the battery but it worked and I forgave him lol he was good to us. I wish, as an adult: i would have thanked him for all his help. I'm so sorry for your loss.
