“ Fred and Ina Ruth have always shared a special place in my heart. Fred could light up a room with his big grin - he always put a smile on my face. Will miss him.

Thank you for your kind words. My dad always thought fondly of you. We miss him greatly but Alzheimer's robbed us of him several years ago. I know he is at peace. Love Kathy and family

“ Uncle Fred was practically raised by my mother Mozelle Hoglan Pearce and I have been close to him all of my life. While in High school I started working for him digging ditches, plumbing houses, raking hay, pouring concrete, etc. The work was hard, hot and dirty but I learned a lot from Fred about not only how to build and repair things but about always doing "finish product" work and life in general. We worked long hard hours but there was always laughter and joking around too. When I first started working for Fred he was always on my case and finally one day I looked him in the face and stood up to him. I realized then that was what he was trying to get me to do was to stand up for myself. We got along great then after. Fred may not have had a college degree but he was very smart and meticulous about everything he did, e.g. plumbing, carpentry, electrical, etc. He could get his old tractor to run when anyone else would have given up on it. Fred could be gruff on the outside, but when it came to kids he was the original "uncle sucker". We will all miss him, but he is truly in a better place now.
