“ Kent always had a smile to share. As a child we had so many adventures along with his brother Willie at their Grandparents, and my Aunt & Uncles ranch. Such simpler times and memories I cherish.

“ Kent was one of those friends you have for life. Even though I didn't see him very often, we always shared laughs and memories each time. I can not think of high school without thinking of him. He was a very sweet guy and will truly be missed.

“ I remember when Kent first moved to Clayton, he was so cute and was someone "new". We did not get many new students to our school so it was exciting and he was from a big city! I think most of the girls in our class had a crush on Kent at one time or another. Kent was always a presence in my memories of high school in Clayton. I still saw Kent anytime I came back to Clayton. He will be missed! Amy Walter Gullett

“ I remember Kent from high school. Such a cool guy. Remember going to Six Flags on our senior trip. We had such fun. We couldn't start the day off without an argument but it was all good. So sorry to his family. I know you all have good memories and just keep them in your heart. Darlene Sanders Howze

“ I grew up with Kent. Spent a lot of time having fun and listening to music in his red mustang. Went to college with him. Never saw him without that great big smile. Ran into him just the other day at Subway. We talked forever and he was going to take me to see the windmills. Wish we would have went right then. He was a great friend and I don't believe there was a thing you could ask him to do for you that he would not have tried to accomplish. I will miss him greatly. Earl Garrison.
