“ Hey Cuz, when I saw you a few months ago, I had no idea that would be the last time to see you here on earth. We had a quick visit and then you were on your way, life is so like that. We are here for a visit whether short or long, and then we are on our way! I remember when he worked as janitor at Buffalo Valley, there was never a dull moment with him around. One of these days, soon and very soon, we shall all see each other again! Regina and family, so sorry for your loss, our hearts and prayers go out to you!

“ I don't know where to start with the memories. When we were children, we would go see Aunt Crin and Uncle Boss, about 3 or 4 times a year. Larry, my sister and myself would roam the mountains behind their house for hours, until Uncle Boss would honk the horn on his truck for us to come in for supper. We would swim in the creeks, and slide down the dam around their pond until we wore out the bottoms of our pants, until Larry found an old wheel barrow bucket, or lawn mower deck, still on it's wheels. This was our childhood get away. When I got married, my husband would love to go to their house and go hunting with Larry. Larry was the best cousin anyone could have. Larry would crochet his own horse blankets. He's the one who taught me to crochet. I was 14, he was 12. We were both leftys. God bless your family and keep them safe. From all of us in OKC.

“ Larry was my long time EMS partner at the LeFlore County EMS station in Talihina. He put up with me bossing him should for 8 years, and was a wonderful partner. He was kind, generous, and a very loving person to almost everyone he came across. His love of the Buffalo Valley Fire Department was evident for a very long time. He will be missed by many. God bless and keep you, Larry.

“ Larry was such a fun person to be around. But every time I hear his name this is what pops into my mind. When we were all younger with our young families we all play dayed together. And one end of the year play day was a fun day and of course it had rained so there were big mud holes. We had planned on doing the drag race. Charles was on the horse ready to drag someone on the tarp and you guessed it here comes Larry with a pair of goggles on. Charles of course went through every mud hole he could find and when they got done Larry took off the goggles and his eyes were the only white on him. We always had so much fun at the play days. Larry will be missed.
