“ Uncle Billy and I are only 8 years and a few hours apart in age, he being my moms youngest sibling and me my nanny's first grandchild, so as you can imagine we grew up together. I guess I was probably around 2 1/2 -3 yrs if age, Talihina still had a sonic drive in, and so every time nanny, aunt Jo, uncle Billy and I went into town it was known that I would automatically be getting a child's size coke or as I called them "my nanny cokes". And if your wondering yrs I always got one, A soon As I would spot this one excited, I would start jumping up into it up-and-down in my seat holler, nanny Coke nanny coke, and she said yes, baby we're getting you in any coke, would pull in there. She would order my Coke and Uncle. Billy would be sitting in the back seat and you said mama. I want a Coke. She said no. Really, you're not getting one. He's say why do I not get one when she does. Every time she said because she will Settle for the small one where you won't the largest 1. And I remember turning around in the seat sticking my tongue out at him while blowing spit saying nanny loves me more. But he always got so mad at me then later at home he would beat the tear out of me. He was always more like an older brother than my uncle really being so close in age. I will cherish all of the memories I've shared with you. I love you and miss you so much already uncle Bill, till we meet again, please give nanny and Leonard the biggest tightest hug you can from me. Soar high with nanny and the angels
